

NC Disaster Response Hackshop

In partnership with the State of North Carolina and the US Census Bureau

What:

- Free two day event for social good, to improve community response during disasters
- Part hackathon, part lean workshop
- Learn how to invent, refine, and prepare to pitch your idea
- Solve problems in a more informed way, using federal, state, and local data

When:

Friday, November 6th 2015 from 6 pm until 10 pm
Saturday, November 7th 2015 from 9 am to 7 pm

Where:

UNC Wilmington

For:

Software Developers

Use data to build app prototypes and services to help solve issues the community faces in dealing with disasters. Students welcome!

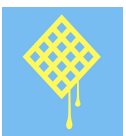

GIS Data Experts

Provide expertise in mapping technologies so teams can understand impact areas and geographic characteristics.

Disaster Response Organizations

Bring domain knowledge of existing disaster response programs, gaps, and opportunities and scrub in with software des and GIS experts to form a team.
